It is a pleasure to receive your order for the above mentioned plants. We feel that during these times it is necessary for all of us to keep up our nursery stock. Customers at present are not long suffering. It is not hard to have them elsewhere and in all probability we have lost a customer. Prices of nursery stock will rise with the next year or two and growing or stock material will be a better quality than for some time past. Good nursery stock is becoming scarce and of good stock will be very much in demand and scarce. Now is surely the time to place a permanent order and to get ready for the better times that are ahead.
